

Due to the recent IDFPR e-mail communication sent to all Illinois Controlled Substance License holders regarding the requirement to register for an ILPMP account, ILPMP is currently experiencing a higher-than-normal volume of e-mails. Please be advised that communication will be delayed. Please note: If you already have an existing ILPMP account with Illinois State License number, you do not need to register again. Please review the FAQs for detailed information.

PMPnow Program Director attends CDC Overdose Data to Action Conference

The CDC, in conjunction with ASTHO, held the “Overdose Data to Action” (OD2A) meeting June 7-9, 2023 in Atlanta, GA. The attendees at this conference were from the CDA, ASTHO, state departments of public health, local and Indian Territory health departments, Prescription Drug Monitoring Programs as well as other grant recipients from the CDC/ASTHO programs. Jen Erickson, MHA, MS, PMPnow Program Director for the ILPMP attended this meeting. Jen and Jackie DeNardo, RHIA from the ILPMP developed a Poster Presentation – Integration in Illinois. During the scheduled poster session attendees were able to view and discuss the posters with the presenters. In addition to the scheduled session, the posters were displayed in the major walkways for the two day conference where the attendees could view at anytime.

Overdose Data to Action (OD2A) supports jurisdictions in collecting high quality, comprehensive, and timely data on nonfatal and fatal overdoses and in using those data to inform prevention and response efforts. OD2A focuses on understanding and tracking the complex and

changing nature of the drug overdose epidemic and highlights the need for seamless integration of data into prevention strategies. Included as part of these grant programs are opportunities such as this conference for awardees to learn from each other and share the successes of their representatives through these grant funds.

A new nasal spray to reverse fentanyl and other opioid overdoses gets FDA approval

Opvee (nalmefene) nasal spray 2.7mg

- Pure Opioid antagonist approved May '23, available Oct '23
- Emergency treatment of opioid overdose for age 12 years and older

Compared to naloxone:

- Much longer 4 hour duration, vs 30-90min
- 4x higher potency at mu-opioid receptor
- Similar onset and time to peak
- Less need for multiple doses
- Prolonged duration of opioid withdrawal
- Less well known and less widely available

Amendments to 77 Ill. Adm. Code 2081 - Adopted

Effective 7/7/2023, amendments to 77 Illinois Administrative Code 2081 have been adopted. See published Rules in the July 21 version of the [Illinois Register](#).

University of Illinois Chicago College of Pharmacy to Offer Free Opioid Analgesic REMS CE

FREE Continuing Education Programs for Healthcare Providers, provided through UIC – Illinois ADVANCE
15-20 minute Academic Detailing

Virtual Visits (Each program approved for 0.5 contact hours. CME, CNE, CPE)

- Meets DEA requirements for opioid education
- Fully compliant with the Opioid Analgesic Risk Evaluation and Mitigation Strategy (REMS) education requirement issued by the FDA.

[More Information](#)

Opioid Analgesic FREE REMS CE

UIC UNIVERSITY OF
ILLINOIS CHICAGO
College of Pharmacy

Academic detailers from UIC share up-to-date information on pharmacotherapy and treatment guidelines through interactive discussions on opioid safety.

Connect with clinical pharmacists

- 15 to 20 minute virtual visits
- 1:1 focused education
- Convenient, flexible scheduling

Get the latest information

- CDC Guideline Overview
- Saving Lives with Naloxone
- Pain in Special Populations

Discuss evidence-based resources

- Tools targeted for real-world prescribing decisions
- Relevant, practical pharmacotherapy insights

Earn free CE credit

- 1:1 educational visits qualify for CME/CNE/CPE
- Meets DEA requirements for Opioid Analgesic REMS education
