ILPMP Streamlines Direct Patient Referral Feature to Illinois Helpline for Patients Seeking Resources for Substance Use and Problem Gambling Treatment

The ILPMP team is raising awareness on the **Illinois Helpline** feature that can be found on patient profiles on ILPMP.org and the majority of integrated views on IL PMPnow. This feature allows for providers, with patient knowledge, to fill out and send patient information to the Illinois Helpline for additional resources for Substance Use and Problem Gambling Treatment. The Illinois Helpline services are staffed 24 hours a day, 365 days a year, with trained specialists. This service is free and confidential with the goal of guiding the patient to the best treatment options for their needs.

The Illinois Helpline is supported wholly or in part through a State Opioid Response (SOR) grant to the Illinois Department of Human Services, Division of Substance Use Prevention and Recovery from the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (TI-081699).
