## New Opioid Treatment Program Reporting Feature on ILPMP website

In light of **Public Act 102-0527**, which mandates Opioid Treatment Program (OTP) reporting data to the Illinois Prescription Monitoring Program with patient written consent, the new OTP feature is now live on ILPMP.org. Prescribers that are in direct care of patients with a diagnosis of substance use disorder (SUD) will have access to prescription drug history including dosages. This information is shared with healthcare providers to ensure that patients receive the safest and best care possible. Providers can have the information needed to reduce the risk of potential drug to drug interactions. In the case of hospital admission, quick access to accurate dosing information may prevent the need for unnecessary dose reductions. Expansion to PMPnow and integrated connections are anticipated by 2024. For more information, see our FAQs below and on ILPMP.org.

The data display below is a mockup profile of a prescriber's view who has access to the ILPMP.

Patient Information		Notifications/ Summary		Notifications/ Summary	
	<b>Clark Kent</b>	<b>Total Prescriptions:</b>	2	<b>Above 90 MMEs Per Day:</b>	No
Age:	64 years and 3 months	<b>Total Doctors:</b>	1	<b>Overlapping Opioid Prescriptions:</b>	No
D.O.B:	6/11/1959	<b>Total Pharmacies:</b>	1	<b>Overlapping Benzo and Opioid Prescriptions:</b>	No
Address:	123 Main St. CHICAGO, IL. 60660.			<b>Long-Acting Opioid/Opioid Naive:</b>	No

More information

## ILPMP Opioid Treatment Program Reporting FAQs

**Q: Is OTP real-time data?**

**A:** No. OTP data has a lag time of up to 1 week. ILPMP receives a new data file from SUPR every Wednesday; it is then uploaded to the database every Thursday. Because of this, we highly recommend clicking the facility link provided on the patient's profile to call and verify the medication dosage.

**Q: How will OTP data be stored within ILPMP?**

**A:** OTP data is housed separately from Illinois retail pharmacy data. Due to 42 CFR Part 2 privacy and security measure, OTP data has additional security standards in which ILPMP must comply by.

**Q: I'm a provider, how will I know when a patient has OTP data to view on the patient profile?**

**A:** If a patient is enrolled into an OTP facility an OTP icon will appear in the icon row. As you click on the OTP Data icon a pop up will appear stating "This patient is enrolled in an Opioid Treatment Program (OTP). Information contained in the OTP data icon has additional privacy and confidentiality protections under Federal Regulation 42 CFR Part 2. Please click "I agree" to verify that you are involved in the direct care of this patient."

## ILPMP Upcoming Conference Schedule

Pictured above: Jacqueline DeNardo, PMPnow Coordinator, (left) and Eric Huff PharmD, MBA, Clinical Project Manager, (right) represented the Illinois Prescription Monitoring Program at Illinois Council of Health System Pharmacists Annual Meeting on September 30, 2023.

### November

#### Nurse Practitioner Week Illinois Conference

November 18

Georgios Banquet Hall, 8800 W 159th Street  
Orland Park, IL

# Breakdown On FDA Released Naloxone Nasal Sprays

## OTC naloxone Nasal Sprays: Narcan & RiVive

### Narcan Emergent Biosolutions

- Two 4mg/0.1mL unit-dose nasal spray devices per pack
- FDA Approved Mar 29, 2023
- \$41 package price (Aug 31, 2023)
- Available September 2023
- FDA News Release <https://www.fda.gov/news-events/press-announcements/fda-approves-first-over-counter-naloxone-nasal-spray>

### RiVive Harm Reduction Therapeutics

- Two 3mg/0.1mL unit-dose nasal spray devices per pack
- FDA Approved July 28, 2023
- \$36 package price (Aug 31, 2023)
- Available Early 2024
- FDA News Release <https://www.fda.gov/news-events/press-announcements/fda-approves-second-over-counter-naloxone-nasal-spray-product>
