## ILPMP Awarded CDC OD2A-S Grant

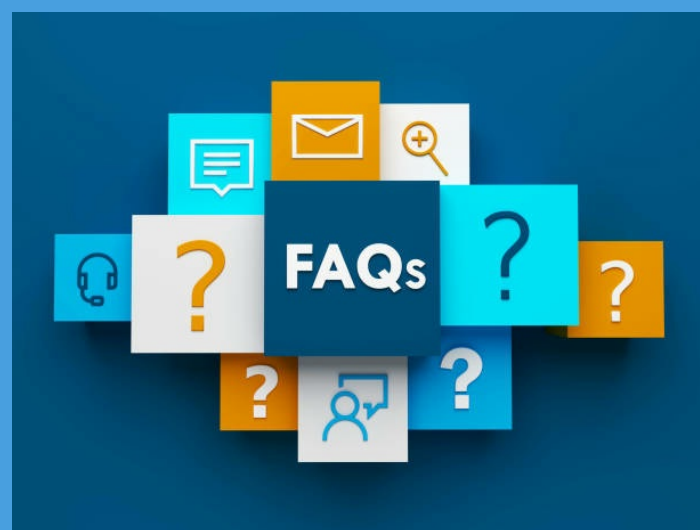

The Illinois Department of Human Services' Prescription Monitoring Program (ILPMP) applied as a sub-recipient and was awarded the Center for Disease Control and Prevention (CDC), Overdose Data to Action in States (OD2A-S) grant in the amount of \$633,374 each year for five years pending federal funding allocations.

The Data-Informed Overdose Prevention in Illinois Project is a collaboration that the Illinois Department of Public Health (IDPH) recognized as a multisector, multijurisdictional, statewide collaboration.

The OD2A-S grant will benefit the PMP in various ways including outcomes such as decreased fatal drug overdoses; decreased illicit opioid and stimulant use, including co-use with other substances, Opioid Use Disorder (OUD), and Stimulant Use Disorder (StUD); improved health equity among groups disproportionately affected by the overdose epidemic and those previously underserved by overdose prevention programs and the healthcare system; and decreased stigma related to substance use and overdose.

Projects for the next five years include: develop trainings on the management of pain focusing on dissemination to all clinicians who may treat acute, subacute, and chronic pain in outpatient settings; provide training to encourage awareness of safe prescribing practices and provide recommendations for tapering opioids; expand PMP data sharing across state lines/interstate interoperability; ensuring that PDMPs are easy to use and access by clinicians; ensure the PMP is accessible to all clinicians through user interface improvements such as single sign-on, access delegation, and electronic health records (EHR) integration; and in collaboration with other State PDMPs, and LogiCoy, ILPMP will continue to share data via the RxCheck hub.

## ILPMP Designee Updates

**Q: How many designees may utilize the ILPMP for patient care after obtaining access authorization from the ILPMP staff?**

**A:** The prescriber or dispenser shall only have up to **five** designees, with the exception of a hospital or their authorized location such as a long-term care facility/opioid treatment facility.

**Q: What type of licensed or non-licensed designee are authorized?**

**A:** Registered Nurse, Licensed Practical Nurse, Pharmacy Technician, Student Pharmacist, Certified Medical Assistant, Dental Hygienist, or Dental Assistant

\*Updated amendments to 77-2080 Rule have been adopted, effective September 8,

## ILPMP Upcoming Conference Schedule

### September

#### Illinois Council of Health - System Pharmacist

ICHP Annual Meeting  
September 21 - 22  
Drury Lane Theatre & Events, 100 Drury Lane  
Oakbrook Terrace, IL

#### Illinois Pharmacists Association

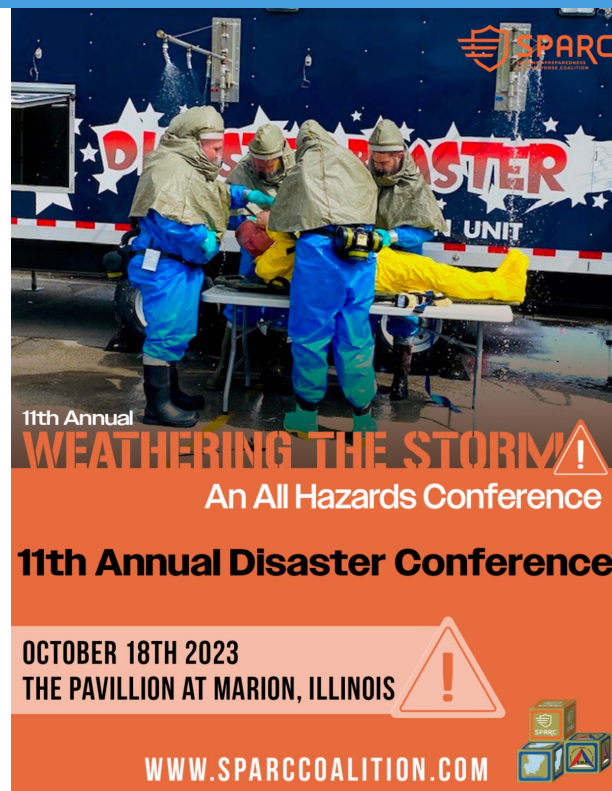

IPhA Annual Conference  
September 28 - Oct 1  
Crowne Plaza Hotel, 3000 South Dirksen Parkway  
Springfield, IL

### October

#### Illinois Society for Advanced Practice Nursing

ISAPN Midwest Conference  
October 4 - 7  
DoubleTree by Hilton, 3003 Corporate West Dr.  
Lisle, IL

## SPARC 11th Annual Disaster Conference - Weathering The Storm

- The Shawnee Preparedness and Response Coalition is pleased to invite you to our Regional Disaster Conference: "Weathering the Storm." This is the tenth year for this conference, and our intent is to provide a quality disaster preparedness conference in the southern region of the state.
- This program will benefit a broad range of individuals and groups involved in personal, professional, and governmental emergency preparedness, planning, and response. EMA, Healthcare, EMS, Law Enforcement, Fire Departments, Private groups and more.

# SIC HEALTH FAIR

**WEDNESDAY, OCT. 4**  
9 AM-12 PM | B-BLDG. HALLWAY

- Free admission
- Giveaways
- Informational Booths
- Free Screenings

## Educational Resources

### NEW Webinar: Continuing Medical Education

#### Benefits of a Designee

Webinar

- Describe the ILPMP program and registration process
- Explain how a prescriber can assign a designee
- Identify the capabilities and responsibilities of a prescriber and designee within the ILPMP
- Discuss the importance and benefits of assigning designee(s)
- 1.0 contact hour CME

The ILPMP collects and tracks controlled substances and other drugs of interest, including:

- Butalbital/Acetaminophen/Caffeine
- Naltrexone
- Naloxone
- Muscle Relaxants
- Gabapentin

If you have questions about the information that appears in this update or suggestions for future content, please email [dhs.pmp@illinois.gov](mailto:dhs.pmp@illinois.gov). Visit [www.ilpmp.org](http://www.ilpmp.org) for more information.

The Illinois Prescription Monitoring Program (ILPMP) is an electronic database that collects, tracks, and stores reported dispensing data on Schedule II-V controlled substances, selected drugs of interest, and other health information. The Illinois Department of Human Services oversees the ILPMP, authorized by the Illinois Controlled Substances Act (720 ILCS 570/316). The ILPMP adheres to HIPAA and all access, disclosure, and confidentiality provisions of Illinois Law.
